

DSI presents New Braunfels Texas Training Session

Thursday November 2nd 2017

Designed Security Inc. and our parent company, Detex Corporation, presented a training session for the door hardware industry, at Detex headquarters in New Braunfels Texas.

In attendance were installers from around the country. The topics of discussion included a review of the Detex door hardware products and the DSI optical turnstiles, tailgate detection devices, door management products and mechanical turnstiles.

Also discussed was the International Building Code’s “Means of Egress thru Optical Turnstiles”, a continuing education program developed and presented by DSI.

For more information regarding a training event near you contact Adam Reddell at dsisupport@dsigo.com.
